

# Unleashing Data Intelligence: Mercer's DnA Academy Powers Next-Generation Analytics

Mercer

Best Association Professional Development Program

November 2024

## Company Background

Company-at-a-Glance	
<b>Headquarters</b>	1166 Avenue of the Americas, New York City, New York
<b>Year Founded</b>	1945
<b>Revenue</b>	\$5 billion
<b>Employees</b>	25,000
<b>Global Scale (Regions that you operate in or provide services to)</b>	130 countries in Africa, Asia, Europe, North and South America and Australia
<b>Customers/Output, etc. (Key customers and services offered)</b>	Mercer helps clients around the world advance the health, wealth, and performance of their most vital asset – their people. Clients include international companies of all sizes serving the leaders, HR managers and employees with the solutions, services and insight they need to make the most of their benefits.
<b>Industry</b>	Consulting and benefits/HR administration
<b>Stock Symbol</b>	MMC
<b>Website</b>	<a href="http://www.mercer.com">http://www.mercer.com</a>

## Budget and Timeframe

Budget and Timeframe	
Overall budget	\$0
Number of (HR, Learning, Talent) employees involved with the implementation?	3
Number of Operations or Subject Matter Expert employees involved with the implementation?	15
Number of contractors involved with implementation	0
Timeframe to implement	6-8 months
Start date of the program	February 2023

## Fit to the Needs

### Mercer Data and Analytics (Mercer DnA)

The Mercer DnA Academy was initiated in response to several challenges and opportunities within the organization. The business conditions at the time highlighted the need for a comprehensive data and analytics platform that could streamline processes, improve efficiency, and drive revenue. Some of the business needs that led to the creation of this professional development program:

### Business Conditions and Needs:

#### 1. Excel Dependency and Customized Dashboards:

- Consultants' reliance on Excel for data aggregation led to inefficiencies and significant manual effort in creating customized dashboards for clients. This approach was time-consuming and not scalable for the growing demands of data analytics.

#### 2. Development Costs and Data Access Challenges:

- The practice of building custom data portals for each client resulted in increased development costs. Additionally, obtaining permissions for individual data assets posed challenges, causing delays in project execution.

### 3. Data Transformation and AI/ML Model Deployment:

- Data engineers faced challenges in transforming files between formats using existing tools. Data scientists encountered risks and inefficiencies in creating AI/ML models locally, requiring extensive redesign before deployment.

### 4. Testing and Deployment Challenges:

- Project managers experienced delays and inefficiencies in testing, upgrading, and deploying software features across multiple environments, impacting the overall project timelines.

### Implementation:

To address these challenges, the Mercer DnA Academy was established in collaboration with Learning & Development (L&D). The Academy aimed to provide a comprehensive data and analytics platform to streamline processes, enhance efficiency, and drive revenue. Key aspects of the implementation included:

#### 1. LXP Pathway Integration:

- Implementing a Learning Experience Platform (LXP) pathway for each persona within the Mercer DnA platform streamlined the learning process and centralized knowledge resources.

#### 2. Skill Enhancement and Collaboration:

- The centralized approach aimed to increase colleague skills, promote collaboration, and drive the adoption of data and analytics capabilities within the organization.

#### 3. Comprehensive Data and Analytics Features:

- The Mercer DnA platform offered features such as Data Engineering, Descriptive Analytics, Predictive Analytics, Data Discovery, and Data Delivery, leveraging modern cloud architecture for seamless access.

#### 4. Economic Benefits from Reusable Components:

- A pool of reusable data and analytics components resulted in dynamic visualizations for clients, efficient data asset discovery, and quick deployment of AI components, leading to significant economic benefits.

#### 5. Modern Cloud Delivery Practices:

- Adopting modern cloud delivery practices simplified upgrades and reduced deployment time, addressing the testing and deployment challenges.

### Outcome:

The Mercer DnA Academy effectively addressed the business need for a more efficient, scalable, and cost-effective data and analytics solution. By driving innovation, enhancing client experience, and improving operational efficiencies through data-driven insights and solutions, the Academy aligned with the organization's strategic objectives and responded to the identified business needs and challenges.

## Overview

**Goals and Objectives:** The professional development program at Mercer, centred around the MercerDnA platform, was designed with the following goals:

1. **Develop Skills and Knowledge:** Equip Mercer colleagues with advanced data and analytics capabilities in data engineering, data science, and data visualization.
2. **Empower Innovation:** Enable colleagues to deliver innovative solutions by leveraging the MercerDnA platform.
3. **Better Client Relationships:** Provide colleagues with the tools and knowledge to strengthen client relationships through data-driven insights.
4. **Drive Revenue Growth:** Empower colleagues to contribute to revenue growth by utilizing advanced analytics capabilities.

**Training and Resources:** The program provided comprehensive training and resources, including:

1. **Data and Analytics Tools:** Access to tools like Qlik and Spotfire for effective data visualization and analysis.
2. **Curated Data Sets:** Availability of over 100 curated data sets to provide a wide range of data sources for analysis.
3. **Application Support:** Support for over 30 applications across Mercer practices to ensure a broad application of data and analytics skills.
4. **Skill Development:** Focus on developing skills in data transformation, visualization, and AI machine learning through Mercer-customized reusable templates and AI starter kits.

**Marketing and Target Audience:** The program was marketed to a corporate audience, leveraging partnerships with industry leaders (AWS and Qlik). Marketing efforts included targeted communications to Mercer colleagues, highlighting the benefits of the program and the platform in driving innovation and enhancing client experience.

**Impact on Buying Organizations:**

**Alignment with Organizational Objectives:** The MercerDnA platform was aligned with the overall data and analytics strategy of buying organizations, aiming to:

1. **Democratize Data:** Provide self-service capabilities and easy data collection, enabling organizations to make data-driven decisions.
2. **Operational Support:** Offer operational support and enable data-driven revenue generation.
3. **Cost-Effective Insights:** Deliver insights in a cost-effective manner, enhancing the value proposition for clients.
4. **Quick AI Implementation:** Enable the rapid implementation of AI capabilities, providing a competitive edge to organizations.

**Program Outcomes:** The professional development program had a significant impact on buying organizations by:

1. **Empowering Colleagues:** Equipping Mercer colleagues with the necessary skills and tools to effectively leverage the MercerDnA platform, leading to enhanced service delivery to clients.
2. **Driving Innovation:** Enabling the delivery of innovative solutions to clients, addressing their unique business challenges through data-driven insights.
3. **Strengthening Relationships:** Enhancing client relationships by providing data-driven solutions that align with their strategic objectives, leading to increased trust and collaboration.
4. **Revenue Growth:** Contributing to revenue growth for buying organizations by offering advanced analytics capabilities that drive operational efficiencies and competitive advantage.

The MercerDnA program aimed to improve the skills and knowledge of Mercer colleagues in data and analytics. By aligning the program with organizational objectives and effectively marketing it to a corporate audience, Mercer sought to drive adoption and maximize the value of the platform for both colleagues and buying organizations, ultimately leading to innovation, enhanced client relationships, and revenue growth.

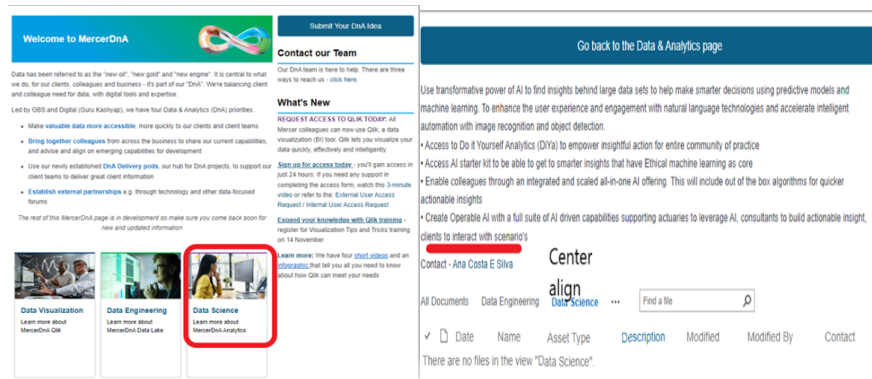

## Design of the Program

The Mercer DnA Academy program is meticulously designed to cater to the diverse needs and goals of its audience within the organization. The program structure and content are tailored to ensure a comprehensive understanding and practical application of data and analytics capabilities.

### Program Structure:

1. **Phased Approach:** The program is organized into three distinct phases, each focusing on a different level of expertise and learning objectives. This structured approach allows participants to progress through the program incrementally, building on their knowledge and skills at each stage.
2. **Foundational to Advanced Learning:** The program design takes into account the varying skill levels within the organization, starting with foundational topics in Phase 1 and progressing to more advanced and specialized topics in Phases 2 and 3. This ensures that participants have a solid understanding of the basics before moving on to more complex concepts.

### Learning Objectives and Topics:

1. **Phase 1 - Introduction to Mercer DnA Platform:** Participants learn the basics of the platform, including how to request access, set up projects, and understand data dimensions and measures. They are also introduced to key tools like Qlik and Spotfire, as well as curated data sets and reusable templates for data visualization and AI machine learning.
2. **Phase 2 - Advanced Topics and Skills:** The focus shifts to more advanced topics such as using Qlik tools for creating insight-rich data visualizations and exploring the self-service analytics capabilities of the platform. Participants learn how to move beyond insights to actionable analytics and develop their own dashboards using Qlik Insights Advisor.
3. **Phase 3 - Specialized Areas of Expertise:** Participants delve into specialized topics such as generative AI and marketing analytics. They explore advanced data analysis, predictive modeling, and generative AI to solve industry-specific problems. Collaboration between the Mercer DnA team and various practices and geographies is emphasized to drive innovation and operational efficiencies.

	Owner	Category	Priority	Status
MercerDnA 2.0 Platform Launch	Marianne Richards	Communication Assets	High	Open
	Anju Dhawan	Degreed Learning Content	High	In Progress
MercerDnA 2.0 Platform Dev	Aarti	KF2.0 Starter Kit and Architecture	High	In Progress
	Mamish	BI Starter Kit and reusable templates	High	In Progress
	David	AI ML Ops Guide	High	In Progress

Launch Assets					
1. MercerDnA site v1	Mercer Link	n/a	All colleagues (focused on three persona groups)	1/16/2023	Complete
1. MercerDnA site v2	Mercer Link	n/a	get more valuable input All colleagues (focused on three persona groups)	3/10/2023	Complete
1c. MercerDnA infographic v1	1 - Mercer Link 2 - Share with regional comm leaders (kat is linked to a Teams community) 3 - Supported by Yammer 4 - Add with Career for inclusion in Career Newsletter (Yasmin Martin) 5 - Commercial Beat (Nicky Harris)	Kat	All Audience	3/29/2023	In Progress
2. MercerDnA Learning Academy - Phase 1		Chetan	All Colleagues	10/21/2022	Complete
2. MercerDnA Learning Academy - Phase 2		Chetan	All Colleagues	3/23/2023	Complete
A week campaign - Infographic (yammer and link to the careers community) first and followed by the Post card for next 4 days.					
3 - MercerDnA Platform Post Card/Infographic launch	Yammer			3/29/2023	
3 - MercerDnA Platform Post Card	Yammer	Guru	O&T	3/29/2023	
3 - MercerDnA Platform Post Card	Email?	Kat	EA Team	3/29/2023	
3 - MercerDnA Platform Post Card	Yammer	Kat	Leadership Practice	3/16/2023	

**Training Materials and Resources:**

- 1. Comprehensive Training Materials:** The program provides participants with a wide range of training materials, including business user guides, BI starter kits, and online training courses. These resources are designed to cater to different learning preferences and ensure that participants have access to the necessary information to succeed.
- 2. Practical Application:** The program emphasizes the practical application of learned concepts through the use of Mercer-customized templates, Mashup Templates for advanced reporting, and hands-on exercises with Qlik tools. This approach ensures that participants can apply their knowledge in real-world scenarios.

Comms Asset	Responsible Party	DnA Team Coordinator	Dates	Next Steps
1. MercerDnA ML site migration and updates	Michal Grabka		Begin working together starting 12/19	Himanshu will work with Michal on MercerDnA ML site migration to SP2 and add the changes discussed with Michal on 12/13/2022
1a. Guru's Video: script creation	Chetan, Deepti and Anju		12/19	Himanshu will follow-up with Chetan, Deepti and Anju to ensure the script is sent over to creative team for review
1a. Guru's Video: script review	Kat		01/03	Kat to review and share her feedback and changes with the entire team
1a. Guru's Video: script review with Guru	Wini/Jess		01/06	Wini/Jess will meet with Guru for his approval
1a. Guru's Video: production	Kat		TBD	Kat will book this
1b. MercerDnA - Animated video v1	Chetan, Anju		12/19	Share first snippet

During next week while I am out, Vikas will help you create and track the following:

- Data Engg scripts and presentation from Aarti
  - <https://mmc.zoom.us/rec/share/QYgly-Hvg7XtYh6Emi61FFi9-k15pl5jOCgkVF6ezK2U1si9HWeA1McbY5neR1X.RiGoQ5azm9FxrPV?startTime=1659075338000>  
Passcode: %KFF1TUB
  - Vikas please identify where is the Data Engineering presentation and host it [here](#) for Deepti/Chetan's review
- Data BI scripts and presentation from Manish
  - Vikas please work with Manish on finalizing the [Qlik and Project onboarding](#) learning content topic
  - Vikas please work with Manish to create scripts and presentation for the BI learning Topics below,
    - DnA Qlik Reusable templates
    - Checkout this MercerDnA BI starter kit first, before you start development on a BI/ Data Visualization project
    - What is Qlik used for at Mercer?
    - How can I go from Data to Dashboard in less than 15 minutes using MercerDnA platform?
- Data Science scripts are being reviewed now, but Vikas please follow-up on the presentation to support each topic

Topic
Start here
What frameworks can I have access?
How to onboard into R?
How to onboard into Spotfire?
Kubernetes
How to DIY in SKU1.4. Include dev,stage,prod
Share and Export your Spotfire Insights Spotfire Quickstart
Create a Spotfire Dashboard in 5 minutes Spotfire

Add a secondary content section under the DnA Platform personas (Qlik Sense/Data Science and Data Engineering), to include the example videos of projects delivered by the DnA team using the three platform personas Identify a fitting location where a collated DnA Platform access request form, training video and training material can be hosted

- Himanshu/Pushpa is working on the Jira form
- Himanshu/Pushpa is working on the video script and presentation
- Himanshu/Pushpa is working on the training material
- Teresa will voice the DnA Platform training video

No.	Topic	Launch Phase	Priority	Content Owner	Persona			Links	Supporting Documentation

3	Commercial Intelligence	Ph2	High	Teresa			TBD		

## Conclusion:

The design of the Mercer DnA Academy program is carefully crafted to meet the specific needs and goals of its audience. By providing a phased approach, covering foundational to advanced topics, and offering comprehensive training materials, the program ensures that participants are well-equipped to leverage the capabilities of the Mercer DnA platform to drive innovation, better client relationships, and contribute to the organization's success.

## Delivery of the Program

To facilitate the learning process, the program was translated into the LXP platform, which serves as the learning management system for the Mercer DnA Academy. The deployment of the Mercer DnA Academy professional development program was strategically executed to ensure accessibility, engagement, and effectiveness for its audience. Key components of the program's delivery include:

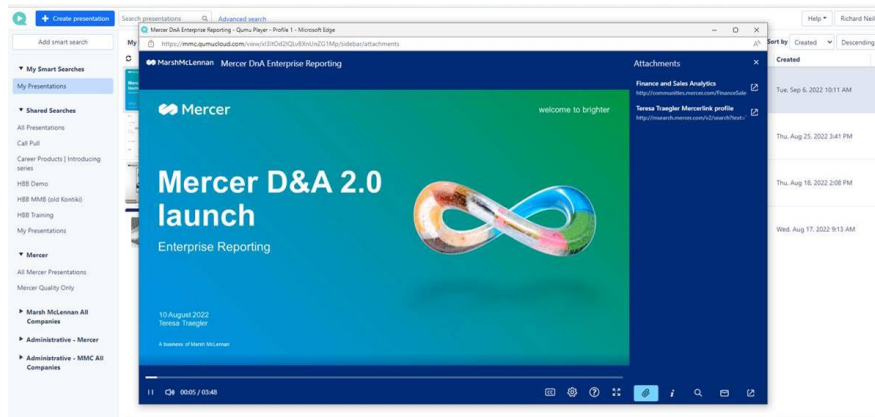

- 1. Learning Experience Platform (LXP):** The program was integrated into the LXP platform, serving as the centralized learning management system.

This platform facilitated seamless access to various modules and courses, enabling participants to engage with the content in a structured manner.

2. **Self-Paced Online Modules:** The program offered self-paced online modules, allowing participants to learn at their convenience and pace. This flexibility catered to the diverse schedules and learning preferences of Mercer colleagues.
3. **Virtual Instructor-Led Sessions:** Virtual sessions led by instructors provided an interactive learning environment. These sessions offered real-time engagement with experts, enabling participants to ask questions, clarify doubts, and deepen their understanding of complex topics.
4. **Interactive Workshops:** The program included interactive workshops that encouraged hands-on learning and practical application of concepts. These workshops provided opportunities for participants to work on projects, collaborate with peers, and receive immediate feedback from instructors.
5. **Progress Tracking:** The LXP platform enabled participants to track their progress throughout the program. This feature allowed learners to monitor their achievements, identify areas for improvement, and stay motivated.
6. **Collaboration and Engagement:** The platform facilitated collaboration and engagement with instructors and peers. Participants could engage in discussions, share insights, and learn from the experiences of others, fostering a collaborative learning environment.
7. **Phased Approach:** The program's phased structure ensured that participants could progressively build on their knowledge and skills. This approach allowed for a logical progression from foundational concepts to more advanced topics, ensuring a comprehensive learning experience.
8. **Accessibility:** The use of the LXP platform ensured that the program was accessible to participants across different geographies and time zones. This accessibility ensured that all Mercer colleagues had the opportunity to participate in the program, regardless of their location.
9. **Continuous Support:** Participants received continuous support throughout the program, including access to learning materials, guidance from instructors, and technical assistance with the LXP platform.
10. **Feedback and Evaluation:** The program incorporated mechanisms for feedback and evaluation, enabling continuous improvement of the content and delivery based on participant input and learning outcomes.

2022-09-12 Meeting:

1. ER Video
  - a. Marianne sent over her feedback on the ER video changes which was email to Richard Neil
  - b. Short summary as the description for ER video introduction
2. Data Script 1
  - a. Aarti to modify few sentences and then transfer it over to David to convert text to audio
  - b. Aarti to produce zoom video using the audio and DE ppt
  - c. Script 2 to be created
3. MercerDnA Hero Image usage
  - a. As per Mercer Creative team's guidelines any and all MercerDnA templates which Marianne shared are not to be changed specifically for the DnA image, colors and fonts used and laid out in the [MercerDnA Brand Assets](#)

RE: An update - launching Qlik

Thanks for this – I have a number of comments/updates that I'm working through.

For the postcard template, I'm afraid you can't move the logo/image next to the heading – that doesn't align to brand. How the postcard has been built adheres to brand guidelines so it needs to stay where it is. In the email template you'll see that the image is directly next to the heading in the banner. Both templates have the headline and image but they need to remain where they were. Happy to discuss.

Thanks
4. Qlik
  - a. Script 1&2 - shared for review
  - b. Script 3 - to be reviewed
  - c. [Qlik Persona Slide 9](#)
  - d. [Qlik Learning: Continuous Classroom](#)
  - e. [Qlik Learning: Business User Learning Plan Qlik Sense](#)
5. Action Items for Marianne
  - a. Mercer logo changes to MMC

2022-09-07

**Advertising Systems**

1. Accomplishments:
  - a. ERI video is ready for the Degreeed - DnA Learning Academy launch
  - b. Five of all scripts and 3 Data script is ready for video production
2. Video Package Readiness: Timelines - video package will include LSD team approved script, video and ppt
  - a. All - Sept 15
  - b. Data and BI - Sept 22
3. BI Scripts for the topic - How can I get access to Q&A (Mercer DnA BI) for my data visualization projects?
  - a. Three scripts are created out of which first two scripts are ready for Manish and Deepthi's review
  - b. Script #3 needs more work and will be shared for review before EOB this week.
4. DnA Learning Academy - content plan
  - a. It will be packaged with the overall Mercer DnA 2.0 platform launch package
  - b. Mercer DnA 2.0 intro video will be an interactive one
    - i. Give us voice 0
    - ii. Marianne and Wiro will create its content
  - c. Mercer DnA 2.0 Commerce

**COMMUNICATIONS PLAN – PHASE 1 (WITH PROVISIONAL GO LIVE)**

Timing	Activity	Purpose	Audience	Owner / Sender	Further Information
Prep: wks 22 Aug 7 Final Date	Global Leader control assets	Advance notice of DnA 2.0 platform launch – key messages, benefits, timeline	Leaders	Marianne, Oruru (Global comms team)	Suggest including message map
Life Ann	Regional & LOB Communications	Brief this audience on DnA overall to help them position new DnA platform in their right way with their respective audiences	Comms leaders	Marianne & Laura E	Requested a slot
Wk 5 Sept	Advance notice – go-live	Notify all relevant leadership teams re go-live of Mercer DnA Platform 2.0 launch	Leadership Teams	Oruru and others	e.g. CLT, O&T, LT
	Share our feedback	Celebrate with the Digital team the upcoming launch and support them in sharing with their stakeholders	Digital team	Oruru	Via email or Teams
	Share our feedback	Demo Mercer DnA platform launch assets, approach etc and ask for feedback	DnA CoP	Oruru	Could be full group and/or senior to demonstrate/outline influence/friendship colleagues who we could approach for feedback.
	Be direct any existing ML, and ensure aligned to our strategy	We need to make sure colleagues across the table and avoid any confusion on DnA & achieve alignment to our ML, DnA, and overall strategy for our line of business	Various	Marianne and LSD teams	

**COMMUNICATIONS PLAN – PHASE 1 (WITH PROVISIONAL GO LIVE)**

Go-live date	Activity	Purpose	Audience	Owner / Sender	Further Information
14 Sept	We're live launch email	Introduce Mercer DnA platform 2.0, benefits, what's next and how to find out more	Key stakeholders/networks	DnA sub leads – typically points of contact for all things DnA e.g. Oruru, Anna, Teresa, Gary	When we're doing targeted messages like these, we need to address the "WTFM" and ensure it's targeted to the audience group
	We're live launch Yammer message	Introduce Mercer DnA platform 2.0, benefits, what's next and how to find out more	Global colleagues, O&T colleagues, DnA CoP	Various	Can add in other relevant Yammer channels, as appropriate
	We're live launch - Mercer Link global rotator story	Introduce Mercer DnA platform 2.0, benefits, what's next and how to find out more	Global colleagues	Marianne	With link to new DnA ML site
	We're live launch in Commercial Beat	Introduce Mercer DnA platform 2.0, benefits for this audience, what's next and how to find out more	Client-facing colleagues	Marianne	Similar messaging will be included in other targeted newsletters e.g. Career Products, #TrendingNow etc
	We're live – Leadership Dialogue Yammer post	Position DnA CoP and DnA 2.0 as part of 10-minute agenda slot	Leadership Dialogue	Adriana/Linda	Will need to work in partnership with Macare and Oruru on this
20 Sept	Digital all-colleague meeting	Celebrate launch success and bring to life DnA 2.0 for the Digital team, so they can support with their respective stakeholders	Digital colleagues	Marianne/Oruru	In all these comms we'll decide what we need colleagues to know and do. Depending on content being a way more

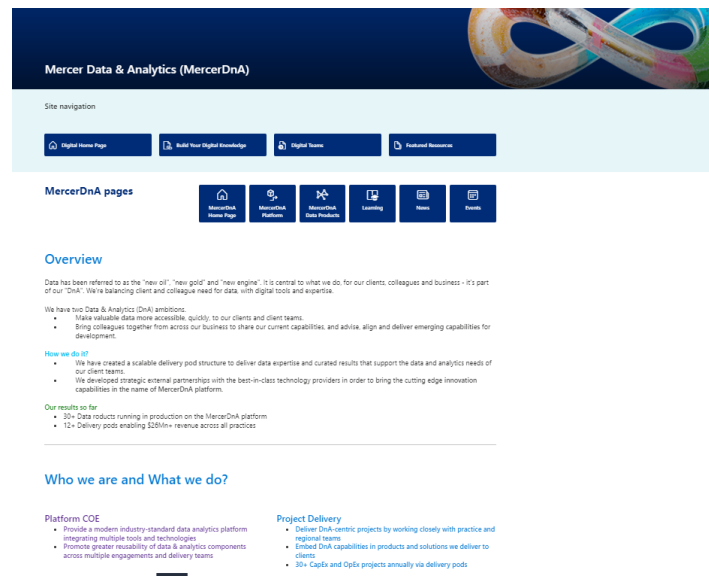

Assets available to support: Mercer Link site, email templates (for tailoring), infographic, a number of bite-sized videos, message map

Mercer

**COMMUNICATIONS PLAN – PHASES 2 AND 3**

Date	Activity	Purpose	Audience	Sender/Owner	Further Information
<b>END OF SEPT/EARLY OCTOBER (PHASE 2)</b>					
End Sept/early Oct	Dept People Manager team	Key messaging for People Managers to help them position Mercer DnA 2.0 with their teams e.g. focus on training videos & ML site	People Managers	Marianne/Kasia/Harris	Regions take this "own" and tailor and distribute within their regions
Timing: tbc	O&T townhall	Celebrate the value of DnA overall, with a focus on Mercer DnA 2.0	All O&T colleagues	Marianne/Kat/Kasia	
	Powered by Digital story	Engage senior colleagues on DnA, with a focus on what they need to know and do to support DnA 2.0 launch	O&T XLT	Marianne/Kat/Kasia	
	Powered by Digital story	Keep launch front and center, ideally with some initial case studies that demonstrate early successes	All global colleagues	Marianne	
	O&S People News (re-launch)	Celebrate the launch of DnA CoP and DnA 2.0 and highlight value it will deliver for O&S	All O&S colleagues	Natlie	
<b>END OCTOBER onwards (PHASE 3)</b>					
tbc	Launch podcast/video	Show senior leadership support for DnA 2.0 e.g. Brian. Could be integrated into his monthly video series	All O&T colleagues	Marianne/Kat/Kasia	

In conclusion, the delivery of the Mercer DnA Academy program was carefully designed to ensure an effective and engaging learning experience. By leveraging the LXP platform, offering a mix of self-paced modules, virtual sessions, and interactive workshops, and providing continuous support and opportunities for collaboration, the program successfully deployed its comprehensive data and analytics curriculum to its audience.

## Change Management Efforts

The professional development program offered by the Mercer DnA Academy was deployed to its audience in a structured and comprehensive manner. The program designed to cater to the specific needs and goals of Mercer colleagues, with a focus on enhancing their skills and knowledge in data engineering, data science, and data visualization.

In delivering the Mercer DnA Academy program, Mercer encountered several challenges and obstacles, particularly in the areas of change management. These challenges included:

1. **Resistance to Change:** Some colleagues were resistant to adopting new technologies and processes, particularly those related to data analytics and AI. This resistance was due to a lack of understanding of the benefits of the program and a fear of the unknown.
2. **Technical Challenges:** Implementing a new learning management system and integrating it with existing systems posed technical challenges. Ensuring that the LXP platform was accessible and user-friendly for all participants required careful planning and coordination.
3. **Cultural Shift:** The program represented a cultural shift within the organization, emphasizing data-driven decision-making and collaboration. Some colleagues were accustomed to traditional methods of working and were hesitant to embrace a more data-centric approach.

To address these challenges and overcome resistance to change, Mercer implemented several strategies:

1. **Communication and Education:** Mercer launched a comprehensive communication and education campaign to inform colleagues about the benefits of the program and the importance of data analytics in driving business outcomes. This campaign included webinars, workshops, and informational materials.
2. **Training and Support:** Mercer provided training and support to colleagues to help them navigate the new LXP platform and understand how to use its features effectively. This training was delivered through virtual sessions and online resources.
3. **Engagement and Involvement:** Mercer encouraged colleagues to actively participate in the program and engage with the content. This involvement helped to build enthusiasm and momentum for the program, leading to greater acceptance and adoption.
4. **Feedback and Iteration:** Mercer solicited feedback from participants throughout the program and used this feedback to make improvements and adjustments. This iterative approach helped to address any issues or concerns that arose during the program.

Overall, Mercer's change management efforts were successful in overcoming resistance to change and ensuring the successful delivery of the Mercer DnA Academy program. By focusing on communication, education, training, and feedback, Mercer was able to effectively manage the change process and drive adoption of the program across the organization.

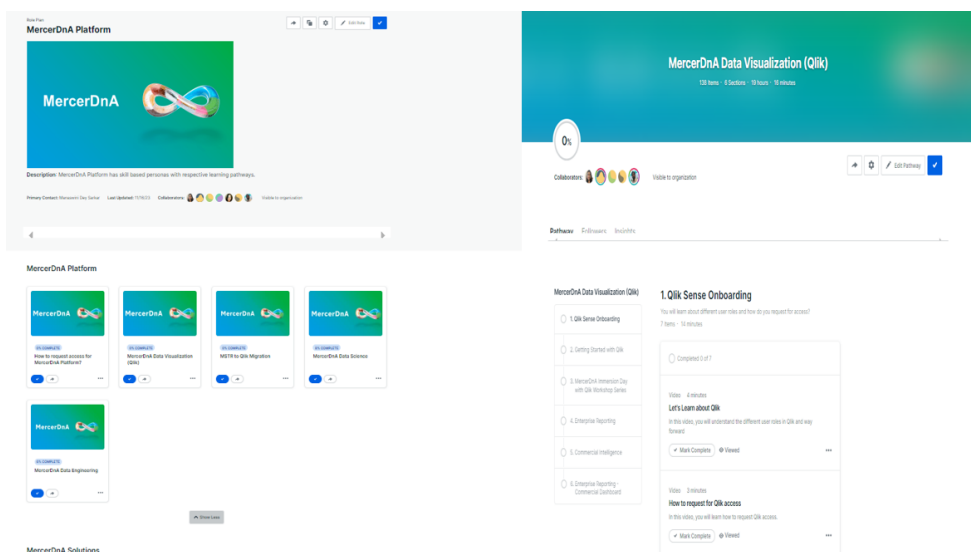

## Measurable Benefits

Details: Mercer colleagues with advanced data and analytics capabilities, enabled them to deliver innovative solutions, enrich client relationships, and drive revenue growth. The program was designed to address specific business needs and challenges within the organization, such as Excel dependency, development costs, data access challenges, and testing and deployment inefficiencies. By participating in the program, employers and individual customers experienced several measurable business benefits. These benefits included:

1. **Improved Efficiency:** The program provided colleagues with comprehensive training and resources, enabling them to streamline processes and reduce manual effort. By leveraging the MercerDnA platform and its tools, such as Qlik and Spotfire, colleagues were able to visualize and analyze data

- quickly and effectively. This led to improved efficiency in data analysis and decision-making processes.
2. **Cost Savings:** The program offered reusable data and analytics components, resulting in significant economic benefits. Consultants could make use of these reusable tools and solutions, resulting in dynamic visualizations for clients. Clients gained access to an industry-standard data marketplace, eliminating the need for data processing or transformation. This reduced development costs and improved cost-effectiveness for both employers and customers.
  3. **Improved Project Execution:** The program addressed data access challenges by providing a centralized platform and data catalogue. Development teams could easily discover data assets and collaborate with product owners and data solution builders. This streamlined project execution and reduced delays, resulting in improved operational efficiencies.
  4. **Enhanced Client Experience:** By utilizing the MercerDnA platform and its functionalities, colleagues successfully delivered creative solutions and valuable insights to clients. The program focused on honing skills in data transformation, visualization, and AI machine learning, empowering colleagues to offer clients advanced analytics and data-backed recommendations. As a result, the overall client experience was improved.

The program aimed to align measurable business benefits with the industry association's objectives by driving innovation, enhancing the client experience, and improving operational efficiencies through data-driven

insights and solutions. This resulted in increased efficiency, cost savings, improved project execution, and a better client experience. These benefits directly contribute to the association's objectives and position organizations for long-term success and growth.

The professional development program offered by the Mercer DnA Academy has proven to be highly beneficial for both businesses and employees. The program has resulted in measurable business benefits, including increased efficiency, cost savings, improved project execution, and an enhanced client experience. These benefits directly align with the industry association's business objectives of driving innovation, enhancing client experience, and improving operational efficiencies.

By participating in the program, employers and learners have experienced improved efficiency in their day-to-day operations. This increased efficiency has led to cost savings for businesses, as they are able to streamline processes and eliminate unnecessary expenses. Additionally, the program has helped employees increase their skills and knowledge, leading to improved project execution and overall performance.

## **Overall**

The professional development program offered by the Mercer DnA Academy has made significant strides in enhancing the skills and capabilities of its participants, improving collaboration and efficiency, and delivering enriched client experiences and value. These outcomes have positively impacted both learners and their employers, showcasing the program's effectiveness as a learning approach.

Key lessons learned from the program include the importance of comprehensive training resources, alignment with organizational goals, and leveraging industry partnerships. The phased approach and availability of curated resources have been instrumental in facilitating learning and adoption. Some of the key outcomes include:

1. **Effective Skills and Capabilities:** The program successfully equipped Mercer colleagues with advanced data engineering, data science, and data visualization skills. Participants gained proficiency in using tools like Qlik and Spotfire, enabling them to analyze and visualize data effectively. This improved skill set has empowered colleagues to deliver innovative solutions and drive revenue growth.

2. **Improved Collaboration and Efficiency:** The program's emphasis on collaboration between the Mercer DnA team and Mercer practices/geographies has resulted in improved collaboration and knowledge sharing. Colleagues can now easily discover data assets, collaborate with product owners, and leverage reusable tools and solutions. This has streamlined project execution, reduced development costs, and improved operational efficiencies.
3. **Develop Client Experience and Value:** By leveraging the MercerDnA platform and its capabilities, colleagues have been able to provide clients with advanced analytics, data-driven insights, and actionable recommendations. This has significantly improved the overall client experience and delivered tangible value to customers.

Lessons learned from the program include the importance of providing comprehensive training and resources, aligning the program with organizational objectives, and leveraging partnerships with industry-leading companies. The program's phased approach and the availability of curated data sets, reusable templates, and AI starter kits have proven effective in facilitating learning and driving adoption.

**Next Steps and Program Improvement:** Moving forward, the industry association plans to further improve the professional development program offered by the Mercer DnA Academy. Some of the next steps and areas of improvement include:

1. **Continuous Learning and Skill Enhancement:** The program will adopt a proactive approach to continuous learning, ensuring that it stays in sync with the rapid advancements in data and analytics. Regularly updated training modules and upskilling opportunities will be provided to keep participants abreast of the latest tools, techniques, and trends in the industry.
2. **Expanded Curriculum and Specializations:** To cater to the diverse needs of the industry, the program will broaden its curriculum to cover additional areas of expertise and specializations. This expansion will enable participants to delve deeper into specific domains such as generative AI and marketing analytics, equipping them with the skills to tackle unique industry challenges.
3. **Better Learning Experience:** The learning experience will be enriched by integrating more interactive and immersive activities into the curriculum. The inclusion of gamification elements, virtual reality simulations, and real-world case studies will make the learning journey more engaging and practical, facilitating better retention and application of knowledge.

4. **Feedback and Continuous Improvement:** Participant feedback will be a cornerstone of the program's continuous improvement strategy. By actively soliciting and incorporating feedback, the program will undergo regular assessments and evaluations to gauge its effectiveness and identify areas for improvement. This iterative process will ensure that the program remains responsive to the needs of its participants.
5. **Industry Collaboration and Thought Leadership:** The program will actively seek collaboration with other organizations and industry experts to enrich its content and stay at the forefront of industry best practices. By sharing insights, participating in industry events, and leveraging external expertise, the program will foster a culture of thought leadership and continuous improvement.

By implementing these next steps and improvements, the industry association aims to further strengthen the professional development program, ensuring it continues to meet the evolving needs of employers and individual customers.

# About Brandon Hall Group™

With more than 10,000 clients globally and more than 30 years of delivering world-class research and advisory services, Brandon Hall Group™ is focused on developing research that drives performance in emerging and large organizations, and provides strategic insights for executives and practitioners responsible for growth and business results.

## Professional Certifications

Self-paced certification programs. Virtual group sessions for companies. In-person conferences and summits.

## Excellence Awards

Three annual programs recognize the best organizations that have successfully deployed programs to achieve measurable results.

## Membership

Individual and Enterprise Membership options: Includes research assets, advisory support, a client success plan and more.

## Advisory Offerings

Custom research projects, including surveys, focus group interviews and organizational needs assessments for transformation, technology selection and strategy.

### ENTERPRISE EXCELLENCE CERTIFICATION PROGRAM

Recognizes the best HCM programs that transform their organization and achieves breakthrough results. This designation is a step above the HCM Excellence Awards® which focuses on one program within a company. Enterprise Excellence is a hybrid of award winners who are also members.

### SMARTCHOICE® PREFERRED PROVIDER PROGRAM

Uniquely places HCM service and technology companies at the top of organizations' consideration list of vendors. It adds an unmatched level of credibility based on BHG's thirty-plus years of experience in evaluating and selecting the best solution providers for leading organizations around the world.

### AGENCY! BY BRANDON HALL GROUP™
